

## Unequal Angles

### General Product Description

Cold-formed unequal angle-section is highly accurate roll formed standard section.

It is manufactured by roll forming using SSAB's high-quality steels. It is mainly used in the construction, transportation and manufacturing industries where dimensional accuracy and high-quality steels are required. Standard steel grade is S235J2C+N or DC01 AM, other steel grades upon request.

### Dimensions

h (mm)	b (mm)	t (mm)	r (mm)	M (kg/m)
30	20	2	2	0.73
40	20	2	2	0.89
50	30	3	3	1.77
60	30	3	2	2
60	40	3	3	2.24
70	50	4	4	3.56
100	50	4	4	4.5
125	65	5	6	7.12
150	50	5	6	7.51
