

## Equal Angles

### General Product Description

Cold-formed equal-angles section is highly accurate roll formed standard section.

It is manufactured by roll forming using SSAB's high-quality steels. It is mainly used in the construction, transportation and manufacturing industries where dimensional accuracy and high-quality steels are required. Standard steel grade is S235J2C+N, other steel grades upon request.

### Dimensions

h (mm)	b (mm)	t (mm)	r (mm)	M (kg/m)
15	15	2	2	0.42
20	20	2	2	0.58
25	25	2	2	0.73
30	30	2	2	0.89
30	30	3	3	1.3
35	35	3	3	1.53
40	40	2	2	1.2
40	40	3	3	1.77
50	50	3	3	2.24
50	50	4	4	2.93
60	60	3	3	2.71
70	70	5	6	5.16
75	75	4	4	4.5
80	80	5	6	5.94
